

# WOOD-LOOK PORCELAIN TILES

[www.mosaictileco.com](http://www.mosaictileco.com)

Advantages of Using Wood-Look Porcelain Tiles

- Will not scratch, fade or need to be refinished
- Virtually maintenance free
- Does not emit any VOCs
- Is manufactured with sustainable materials
- Lowest overall lifecycle cost as compared to any other flooring material
- Suitable for both residential and commercial installations
- Porcelain tile is a conductor – It will keep your home cool in the summer months and retain heat in the winter months. This saves money on utilities, while also reducing your carbon footprint!

Installation of Plank Tiles

Due to its linear shape, plank tiles require particular care when it comes to installation. The tile will look its best when offset is less than 33%. The staggered installation will minimize lippage which is common in tiles of this format. No claim will be honored after installation.
